Offices Buildings

Flexible and technologically-advanced working environments
that are safe , comfortable, durable, aesthetically-pleasing,
and Practical.

Anwar Mooj Al Khaleej

Anwar Mooj Al Khaleej one of the leading contracting companies in Saudi Arabia needed to design their head office with strong unique design. Express the beauty structure with the massive building form to announce the company power.

Mawarid Office Building

The design came to express the corporate structure hierarchy and workflow.

Starting with the two top floors for the corporate ceo's acting as the building cap and operates the entire structure beneath it. Using the cubes as a building unit varies in size and assembled to form the building and emphasizes the different positions from juniors to chiefs' role .

Morina Office Building

The design expresses the high tech, & unique elegant shape of office building in the new millennium. The Project is conceived to provide a protected internal environment by using smart structure to filter daylight which reducing Sun light heat and glare.

SABB Bank

AS an effort to reflect SABB Brand incorporated in the design, the concept floor plan was evolved from (SABB'S logo) with the shape of elongated hexagon viewing from the sky. The shape of the roof is representing the 3 dimensional logo of sabb.

The image of the building is symbolized as a jewel (a Diamond or a Crystal) in the desert considering SABB'S vision as a leading financial service group in Saudi Arabia.

Al Mousa Tower

As a high rise office building concept was created to be an arrow aiming to the sky with outstanding look & special height .it will be a landmark on one of the famous Roads in Riyadh.

Salehiya Medical Design

The full screen curtain wall with the linear strips shows the workflows smoothly through the different divisions and provide a good level of natural lighting for the workspaces creating more friendly and better work environment for. All of that under the protection & supervision by the top management acting like a protective nest in the roof top.

Hotels & Hotels Apartments Buildings

Design for the present, with an awareness of the past and for the future, because Architecture should speak of its time and place, but yearn for timelessness .

Best Western Tabouk

Peaceful 4 stars accommodation hotel in Tabouk city. As a Known name in hotels field, Best Western Tabouk Facade design was a combination between modern & Arabic Touch which matches the culture of Saudi Arabia. We used Islamic modern Pattern & wooden cladding with the curtain walls & modern lines to achieve that.

Al Ajlan Building

When it comes to choosing a place to stay at, impressive exteriors is part of what attracts us to select a property in the first place. Heavy classic details were the key stone in design concept for this hotels apartments building. Giving the luxury feel starts with facades design.

Al Shegry Sky Tower Hotel

Twin tower is always a challenge. Al Shegry tower is one special twin tower, winning the equation of non identical twins with the look of twin.

Designed with different heights with a slim look & connected with a special floor with a unique look for the main hotel restaurant.

The mall Podium with the curved outline gives the project the massive base needed.

Obaikan Tower

Multi use tower, new challenge for a complex usages & function with a unique location in front of kingdom tower in Riyadh on King Fahad Road, Obikan tower take place with its super structural concept & Outstanding end design.

The circular shape idea was created to take advantage of maximum view of the famous road & giving the head office the supper location in the top floor levels with the outstanding look & view.

Aljan Hotel

Aljan Hotel in Olay Street designed to be one of the business hotels in the capital. Aiming to serve businessmen all over the city. With the main facade vertical windows design, Roof shade covering & the modern 45 degree sides give the needed luxury look.

Al Khodeer Hotel

Peaceful 4 stars accommodation hotel in Riyadh city.

A modern & simple treatment is the brand line. Exterior design sends this message...

“You are about to experience a modern day hotel building.”

Residential Buildings

We listen carefully to all client requirements, advise the best design, and offer stunning interiors Dealing with various Projects and businesses.

Al Khaled Compound

Residential compound designed to accommodate the company employees, so we needed to design economic, simple & practical units. We used the heavy concrete precast walls & metal steel elements in facades wooden opening. The project was divided to 3 zones

- (A) One floor building with bedroom units.
- (B) Two Floors Building with bedroom units.
- (C) Services zone (swimming pool-.....).

Al Khaled Compound Villas

Our opportunity, as designers, is to learn how to handle the complexity, rather than shy away from it, and to realize that the big art of design is to make complicated things simple. Modern Villas designs.

Elite Compound

Residential compound designed for luxury accommodation.

Modern & highend finishing was required.

We used special wood cladding with white paint & full glazed wall to give that neat look.

Urban design concept was simple with a main spine starting with the special villas and ending with the services area.

All the other units on both sides on the spine.

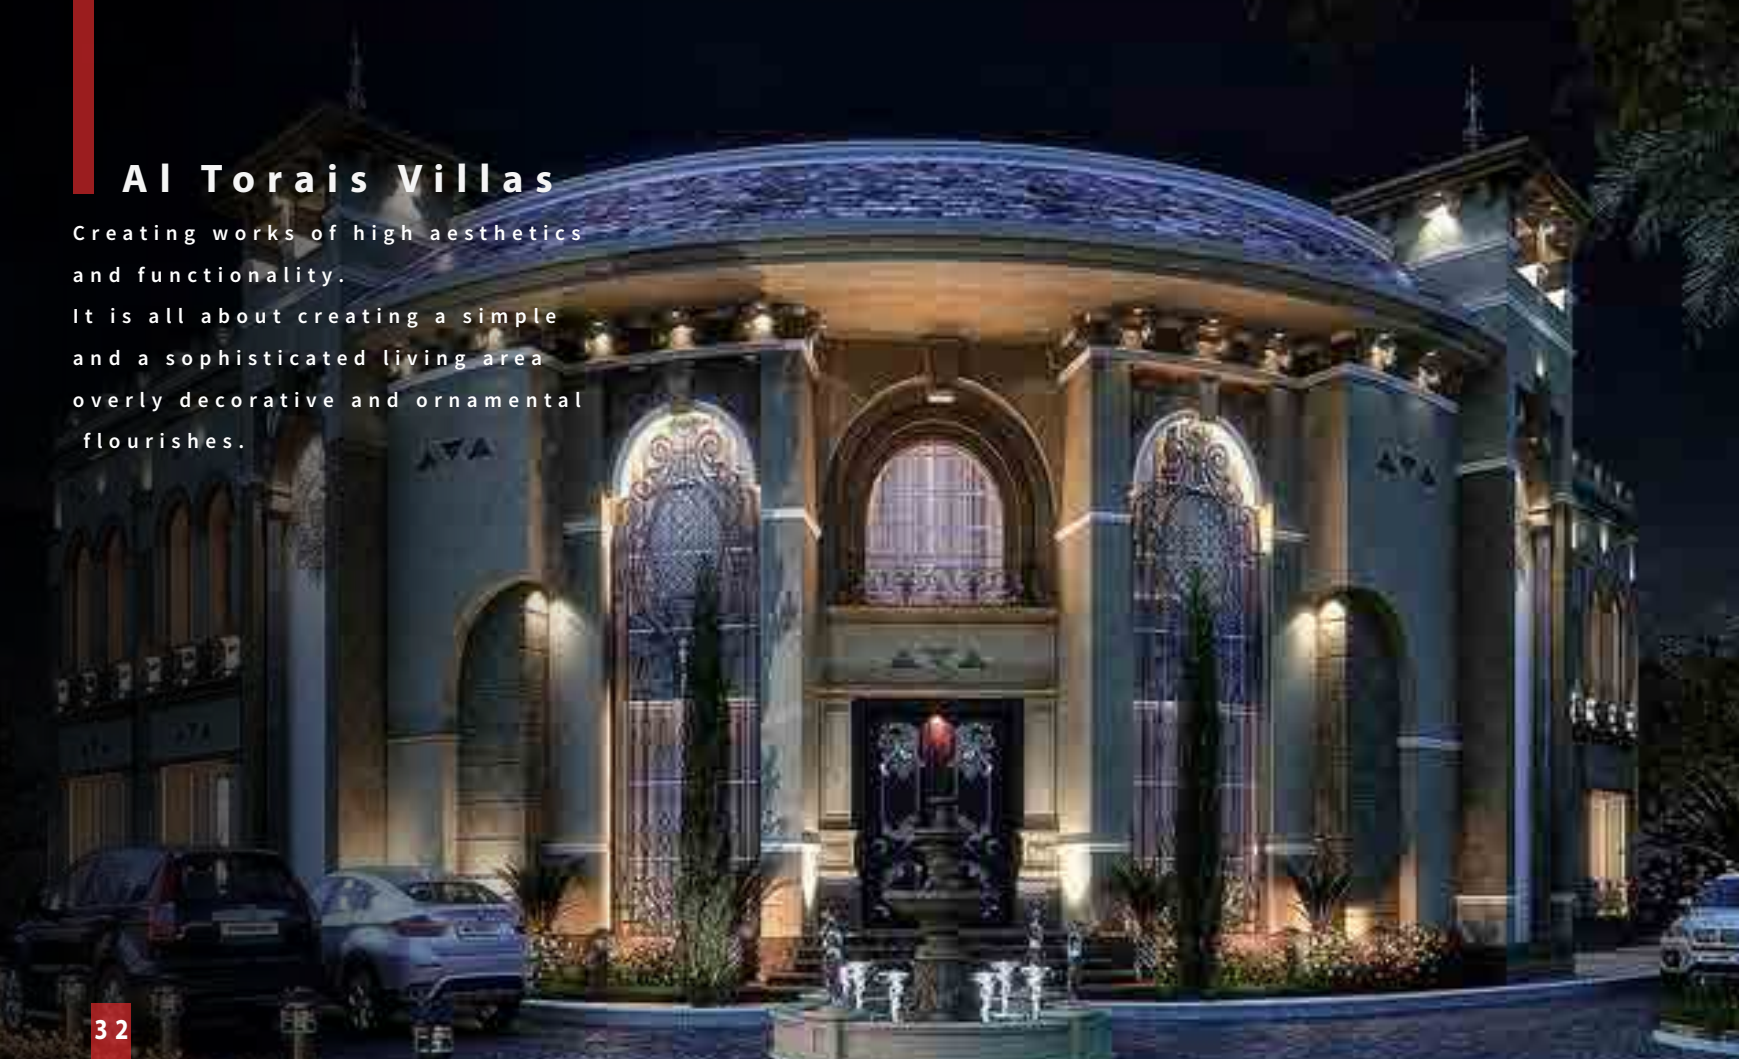

Al Torais Villas

Creating works of high aesthetics and functionality.

It is all about creating a simple and a sophisticated living area overly decorative and ornamental flourishes.

Andalusia Complex

Influence the architecture, legacy through vaulted ceilings, pebbled courtyards, painted tiles, water features and stone walls. Andalusia is known for its beauty.

Happoch Palace

Luxurious palace designed in modern style.
unique exterior design with rich decor details.
The design for such big space on a mountain top
should reflect the great lebanon environment.

A photograph of a modern villa with a central fountain and a bench in the foreground. The villa features a prominent central entrance with a fountain, flanked by large windows and columns. The architecture is contemporary with clean lines and a mix of materials. The foreground shows a paved area with a wooden bench and some landscaping. The sky is bright and clear.

Modern Architecture Villa

The space to create a warm ambiance that best meet our clients' functional and aesthetic needs, including conceptual and schematic design and design development

Modern Villa Design

The design is different from traditional counterparts in the use of technologically-advanced building materials, such as concrete, reinforced steel rods and more modern materials.

Private Villa Design

In this design we try to creating a harmonious and relaxing living space by a combination of tropical style, modern architectural lines and impressive natural landscape.

Moroccan Palace Design

None have been as significant as those of Muslim Arabs arriving in Morocco by the 7th century, The Design inspired by Moroccan architecture.

Classic Palace Design

Give your palace architecture design a novel and welcoming appearance, Classical Design works closely to understand what makes you unique.

Prince Abdel Mohsen Al Sodairy rest house

Royalty, is not an ordinary word It is even much more than a style or attitude.
When we design for a Prince we put all of that in our minds. We design the details
to make the word Royalty is the main description of our work.

Prince Abdel Rahman Al Sodairy rest house

It is our privilege to design for a prince and we do our best to gain this privilege. Much like a painted masterpiece, architecture is an art form that has the ability to delight, inspire, and transform.

Princess Hessa Al Sodairy tent

Above all, princesses are described all the time as pretty, elite and charming. For that sense, our design reflects all the traits on every aspect of the designs. The beautiful design takes inspiration from the Saudi Arabia heritage and offers a luxurious escape from the city.

Commercial Buildings

We design commercial buildings that can rapidly get constructed with high quality, flexibility and adaptability in the application. And they are energy-efficient in use.

Al Safwa Wedding Halls

Royal wedding hall designed to be the largest wedding hall in Tabouk city. Heavy classic details with double height arched windows were distributed on the elevation lines bulk volume and unique massive details were created to give the entrances the feeling of royalty.

Unified Company

The idea of Hyper market & commercial shops was to create an element that connect these long lines of shops and give the look of a mega mall. A huge curved structural element was the main design element.

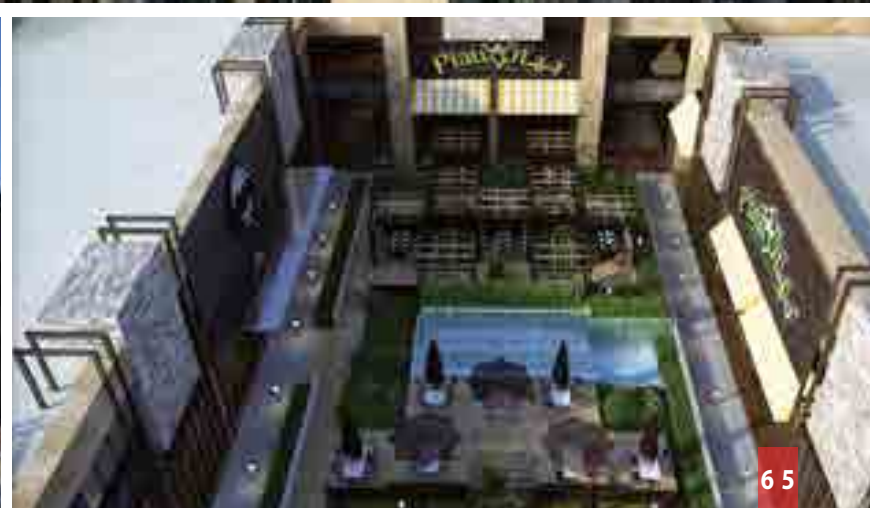

Steak House & Piatto Anas Bn Malek Plaza

Steak House & Piatto are two of the famous restaurants in Saudi Arabia.

we needed to design the exterior facades in such a way to match their styles ,So We used mixed treatments two kinds of stones , varieties of metals and steel elements ,So modern elevations design was useful to achieve that. Anas Ben Malek branch is one of very successful branches for both brands due to its beautiful outdoor setting area too.

Fal company

As all car showrooms, Fal Company needed a very attractive and modern front facade.

Two structural glazing cylinders surrounded by two metal arc louvers and connected with the main entrance gate was enough to give required look.

Volkswagen Company

We used shiny metal cladding with the structural glass walls and metal louvers to give that industrial metal look. All finishes details had to be very neat to be up to these huge german famous company reputation.

Duba Strip Mall

TEG designed Duba Strip shopping mall with environmental aspects in mind.

The mall has modern characteristics, which are evident in elements that were carefully selected to fit the function and the environmental factors, Making this mall stand out.
